

## New PTC “C15”

### Description

To get correct tax exemption, partners are now required to use PTC “C15” for passengers aged 12-15. Using any other PTC (for example YTH) may cause tax exemption discrepancies on some routes such as flights from the UK in economy cabin.

### Process

- In AirShoppingRQ and OrderCreateRQ use PTC “C15” when passenger is aged 12-15
- GBAD tax type exemption is automatically applied (where applicable) in AirShoppingRQ based on PTC
- Tax code “GB” will not be visible in OrderViewRS tax breakdown
