Fare Rules and Benefits

Description

The fare rules and benefits enable communication of the label and the value mapping, which can be used to receive content in given languages for different fare families. Here is described the process and added a complete Fare Rules and Benefits list.

Process

- In AirShopping, OfferPrice, and OrderReshop, you will receive a list of fare rules and benefits. Note that not all fare benefits are currently returned in AirShopping (marked with a (*)).

- By default, the labels are returned in English, but it is possible to select another language by indicating it in the request. Complete list of supported language codes: EN, DK, FI, FR, DE, IT, JP, KO, NO, PL, RU, CN, ES, SE.

- The labels of fare rules and benefits are only returned in OfferPrice and OrderReshop. To display fare rules and benefits labels in the partner's UI after AirShopping, the information needs to be taken from the Excel or JSON files associated with this document. Note that these labels change very rarely, so there is no need to update them frequently.

Illustration

Request for specific language	``` <ResponseParameters> <LangUsage> <LangCode>EN</LangCode> </LangUsage> </ResponseParameters> ```
Fare rules and benefits label	``` <OtherMetadata> <DescriptionMetadatas> <DescriptionMetadata MetadataKey="BAGGAGEALLOWANCE_CARRYON"> <Topic>Carry-on baggage max. 8kg/bag</Topic> </DescriptionMetadata> </DescriptionMetadatas> </OtherMetadata> ```
Fare rules and benefits value	``` <PriceClassList> <PriceClass> <PriceClassID>ELIGHT32</PriceClassID> <Name>Economy Light</Name> <Desc> <DescID>BAGGAGEALLOWANCE_CARRYON</DescID> <DescText>1 pc (8 kg)</DescText> </Desc> ```

From example above

For an offer with FareFamily ELIGHT32:
- Fare Family Name: Economy Light
- Fare Benefit: Carry-on baggage -> 1 piece of 8 kg max

Complete fare rules and benefits list (in English)

- The key is the way to link the description with the value: it must not be displayed to the user.
- The rules and benefits marked with a (*) are not returned in AirShopping.

Fare rules

```
Label: Cancellation (before departure)
Value example: No refund before departure (included insurance surcharge)
