

Finnair Bus Connection

Description

Finnair operates buses in addition to or instead of flights to a limited number of short Finnish domestic destinations, such as Turku and Tampere. They are bookable through Finnair NDC the same way as regular flights.

Process

- Bus connection tickets are sold either together with connecting flights or separately.
- You automatically receive bus fares and information via NDC API.
- In AirShoppingRS and OfferPriceRS, we display the IATA location code "XTZ" (Turku) or "XTP" (Tampere) for the bus stations and "BUS" for the aircraft type code.
- In OrderViewRS, we display the carrier design code "AY" and carrier name "BUS SERVICE FOR FINNAIR".
