

Direct and non-stop flights filter in AirShoppingRQ

Description

It is now possible to search for offers containing only direct or non-stop flights In AirShoppingRQ.

In scope

- Available from NDC API version 21.3.

Process

- AirShoppingRQ:
 - o Under /IATA_AirShoppingRQ/Request/FlightRelatedCriteria/ConnectionCriteria:
 - **MaximumConnectionQty**: for direct or non-stop flights, the value must be 0.
 - **ConnectionCriteriaID**: set a numerical ID of your choosing.
- The ID that has been used in ConnectionCriteriaID should be reused in ConnectionCriteriaRefID under FlightRequest/FlightRequestOriginDestinationsCriteria/OriginDestCriteria/ConnectionCriteriaRefID.
- AirShoppingRS: offers with either direct flights or non-stop flights are returned.
- If no offer is found, an error is displayed: "NO ITINERARY FOUND FOR SEGMENT 1".
