

Finnair Private Fares in NDC

Description

We configure our fare access based on the IATA number. Thus, only specific IATAs may access specific private fares. To access to private fares, please check first the technical availability with your aggregator/technology partner. If supported, please contact your Finnair account manager to get access.

Travel agent negotiated fares

Our negotiated fares can be targeted with pricing codes (account code). However, with many aggregators you don't need to insert the actual code but instead select intended fare type from a drop-down list.

List of Finnair Private Fares

| Fare type | Pricing code in NDC | PTC | OSI |
|------------------|---------------------|-----------------------|------------------------------|

| FIT02 for POC JP | AYFITJP2 | All (when applicable) | |

Corporate fares

Our corporate fares can be similarly targeted with corporate codes. Input your corporate code in the field reserved for it. You can find more information on [Corporate fares page](#) in Easy.

In addition, Corporate Identifier (CLID) must always be used.

In case of Marine fares, OSI element must always be used.
