

Priority ancillary

Description

Priority check-in and security can be purchased as an ancillary if not included with the selected ticket type or as a tier benefit.

In scope

- All API versions.
- Available in select departure airports only; otherwise not visible in the catalogue.

Limitations

- Priority check-in and security are combined in one ancillary product and cannot be selected separately.
- Purchased separately for each flight and passenger.
- Limited availability per flight.
- Not available at transfer airports.

Process

- ServiceListRQ: select the priority ancillary product (**PRCS**).
- OrderCreateRQ or OrderChangeRQ: create or update the order with the priority ancillary.
